

Supplemental Design Memorandum
Lower Sacramento River Phase IV
Alternative C ◊ Not to Scale
Site 349-00-1
Drainage Collector System (25')

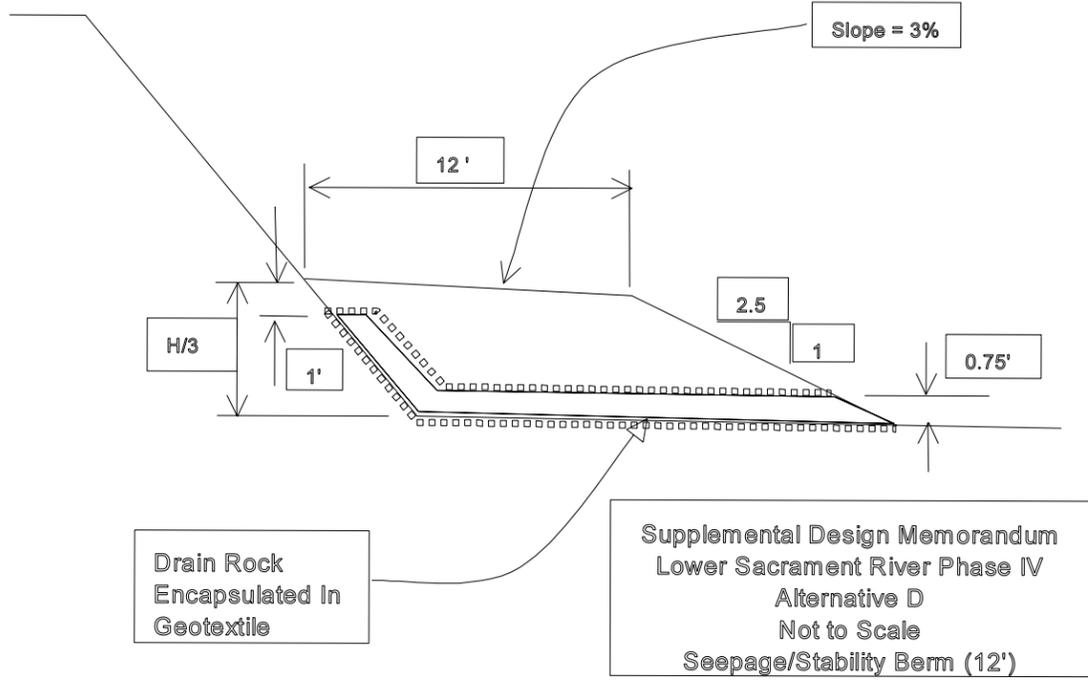

Supplemental Design Memorandum
Lower Sacramento River Phase IV
Alternative C-1 ◊ Not to Scale
Site 349-00-1 Modified
Drainage Collector System (25')

Note: Berm Slopes
are 2.5H:1V

TYPICAL CROSS SECTION WITH LIME TREATMENT

Drain Rock Encapsulated in Geotextile

Supplemental Design Memorandum
Lower Sacramento River Phase IV
Alternative D
Not to Scale
Seepage/Stability Berm (12')

American River Watershed, California
Long Term Study
Final Supplemental Plan Formulation
Report/EIS/EIR

HYDRAULIC MITIGATION
LEVEE SECTIONS

Sacramento District, Corps of Engineers
