

December 2002

Sacramento
and
San Joaquin
River Basins

Comprehensive Study

TECHNICAL STUDIES DOCUMENTATION

APPENDIX F

ECONOMICS TECHNICAL DOCUMENTATION

US Army Corps
of Engineers
Sacramento District

TABLE OF CONTENTS

INTRODUCTION.....	1
Purpose of Documentation.....	1
Economic Guidance	1
Study Area	2
FLOOD DAMAGE REDUCTION ANALYSIS METHODS.....	3
Risk Analysis	4
Flood Damage Reduction Analysis Models	6
HEC-FDA	6
@RISK.....	7
Spreadsheet Analysis (Upper Sacramento Reach).....	8
GIS	8
Floodplains.....	8
EXISTING SOCIOECONOMIC CONDITIONS	9
HISTORICAL FLOOD DAMAGE.....	11
EXISTING CONDITION FLOOD DAMAGE	12
Impact Areas	12
Damage Categories	12
Land Use/Structural Inventories	18
Structural Value	19
Contents Values	20
Urban Depth-Damage Relationships	20
Agricultural Depth-Damage Relationships.....	21
Expected Annual Damage.....	21
Project Performance	26
Population at Risk	30
Future "Without Project" Conditions.....	30
BASIN-WIDE EVALUATIONS	31
River Corridor Evaluations	33
Future Plan Development	35
CONCLUSIONS	35
REFERENCES.....	39

TABLES

Table 1	County Population Projections	10
Table 2	Central Valley Historical Flood Damage.....	11
Table 3	Sacramento River Basin Impact Areas	13
Table 4	San Joaquin River Basin Impact Areas.....	14
Table 5	Key Characteristics of Impact Areas	17
Table 6	Number of Parcels.....	18
Table 7	Structural and Content Values	18
Table 8	IWR Structural and Contents Depth-Damage Functions.....	19
Table 9	Crop Acreages and Production Values	20
Table 10	Sacramento River Basin Expected Annual Damage, Existing Conditions.....	23
Table 11	San Joaquin River Basin Expected Annual Damage, Existing Conditions	24
Table 12	Sacramento River Basin Project Performance Statistics, Existing Conditions ..	26
Table 13	San Joaquin River Basin Project Performance Statistics, Existing Conditions ..	28
Table 14	Population at Risk.....	29
Table 15	Bubble Impact Areas for the Alternatives Analysis	30

FIGURES

Figure 1	Study Area	3
Figure 2	Conceptual Risk Approach for Estimating Flood Damage.....	5
