Other Water (identify type)									

¹Check appropriate boxes that best describe type of isolated, non-navigable, intra-state water present and best estimate for size of non-jurisdictional aquatic resource area.

Migratory Bird Rule Factors ¹	If Known		If Unknown (Use Best Professional Judgement)		
	Yes	No	Predicted to Occur	Not Expected to Occur	Not Able to Make Determination
Is or would be used as habitat for birds protected by Migratory Bird Treaties?			✓		
Is or would be used as habitat by other migratory birds that cross state lines?			✓		
Is or would be used as habitat for endangered species?			✓		
Is used to irrigate crops sold in interstate commerce?				✓	

¹Check appropriate boxes that best describe potential for applicability of the Migratory Bird Rule to apply to onsite, non-jurisdictional, isolated, non-navigable, intra-state aquatic resource area.

TYPE OF DETERMINATION: Preliminary Or Approved ✓

ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 - site conditions; paragraphs 2-3 - rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 - site information on waters of the U.S. occurring onsite): The two depressional seasonal wetlands identified as SW8 and SW9 are located directly underneath two separate transformer power poles and were likely created from the installation impacts of the structures. The features are approximately 320 linear feet from Laguna Creek, but site topography does not support a hydrologic connection to the stream.
