ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 - site conditions; paragraphs 2-3 - rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 - site information on waters of the U.S. occurring onsite): Seasonal wetland appears to a remnant low spot from airport construction over 10 years ago. It does not have any hydrologic connection to waters of the US. Doe not appear to hold water long nor provide habitat for birds or other species.
