US Army Corps
of Engineers

Sacramento District
1325 J Street
Sacramento, CA 95814-2922

Public Notice Number: 200200525

Date: November 8, 2002

Comments Due: December 9, 2002

In reply, please refer to the Public Notice Number

TO WHOM IT MAY CONCERN:

SUBJECT: Application for a Department of the Army permit under authority of Section 404 of the Clean Water Act for the proposed improvement project at the existing Bidwell Canyon Marina. Attached are illustrations, which show the project location and proposed actions.

APPLICANT: James DiGiorgio
Associate Civil Engineer
Department of Boating & Waterways
2000 Evergreen Street, Suite 100
Sacramento, CA 95815

LOCATION: The Existing Bidwell Canyon Marina site is located within the Bidwell Canyon State Recreation in Butte County, California; Section 6, Township 19 North, Range 5 East. Latitude 39 -32-15.0123 Longitude 121-27-24.5678, UTM Zone 10, 632615.92 North, 4377357.56 East. The city of Oroville is located approximately 5 miles west of the proposed project area.

PURPOSE: The purpose of the project is to provide safe and easy access to the existing marina at Bidwell Canyon.

PROJECT DESCRIPTION: The purpose of the proposed project is to provide a finished surface for safer access to the marina. The proposed project consists of the asphalt paving or concrete over the existing gravel area adjacent to the marina. The area is approximately 51,300 square feet (approximately 1.2 acres) and will require some minor regrading and compaction, as well as additional aggregate material added prior to paving. Conventional roadway paving equipment, which consists of backhoes, scrapers, rollers and paving machines will be utilized.

AREA DESCRIPTION: The surrounding land is used for recreational facilities, that are operated and maintained by the California Department of Parks and Recreation. Recreational facilities in the vicinity of the project are include campgrounds, a boat launch ramp, and an existing marina access and parking lot. Adjacent to the Bidwell Canyon Recreation Area is an existing residential development that is located 800 feet to the west of the project area.

ADDITIONAL INFORMATION:

The latest published version of the National Register of Historic Places and its monthly supplements have been reviewed and there are no places either listed or recommended as eligible which would be affected.

Presently, unknown cultural resources may be located in the permit area.

This activity would not affect any threatened or endangered species nor would it affect their critical habitat.

Interested parties are invited to submit written comments on or before **December 9, 2002**. Personal information in comment letters is subject to release to the public through the Freedom of Information Act. Any person may request, in writing, within the comment period specified in this notice that a public hearing be held to consider this application. Requests for public hearings shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the proposal must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, cultural values, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, consideration of property ownership, and in general, the needs and welfare of the people.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

If additional information is required, please contact James DiGiorgio, telephone 916-263-8131, or Ms. Laura Whitney, at the letterhead address, telephone 916-557-7455.

Michael J. Conrad, Jr.
Colonel, Corps of Engineers
District Engineer
