Public Notice

Public Notice Number: SPK-200400520

Date: February 14, 2008

Comments Due: March 14, 2008

In reply, please refer to the Public Notice Number

SUBJECT: The U.S. Army Corps of Engineers, Sacramento District, (Corps) is evaluating a permit application to construct the Antioch Boat launch facility project, which would result in impacts to approximately acres of waters of the United States, including wetlands, in and/or adjacent to the San Joaquin River. This notice is to inform interested parties of the proposed activity and to solicit comments. This notice may also be viewed at the Corps web site at <http://www.spk.usace.army.mil/regulatory.html>.

AUTHORITY: This application is being evaluated under Section 10 of the Rivers and Harbors Act of 1899 for structures or work in or affecting navigable waters of the United States and Section 404 of the Clean Water Act for the discharge of dredged or fill material in waters of the United States (waters) .

APPLICANT: City of Antioch
City Hall, Third and H Streets
Antioch, California 94509
ATTN: Mr. Ahmed Abu-Aly

LOCATION: The project site is located in the City of Antioch on The San Joaquin River, Township 1 North, Range 1 East, MDB&M, Contra Costa County, California, and can be seen on the Antioch North USGS Topographic Quadrangle.

PROJECT DESCRIPTION: The applicant is proposing to construct a new boat launching facility at an existing marina. The proposed project would include a four land boat launching ramp, three new boarding floats, a new parking area with 129 vehicle/trailer stalls, a new restroom building, drainage and erosion control devices, utilities and signage. Based on the available information, the overall project purpose is to construct a new boat ramp at the marina site. The applicant believes there is a need to provide boat launching facility at the marina site. The attached drawings provide additional project details.

ADDITIONAL INFORMATION:

Environmental Setting. There are approximately 2.81 acres of tidal wetlands within the project area. The 4.6 acre site is adjacent to an existing marina is characterized by tidal marsh, a portion of the San Joaquin river and tributary slough habitat, additional, a city park occupies a portion of the project site. The proposed project would result in the loss of approximately 2.52 acres of waters.

Alternatives. The applicant has provided information concerning project alternatives. Additional information concerning project alternatives may be available from the applicant or their agent. Other alternatives may develop during the review process for this permit application. All reasonable project

alternatives, in particular those which may be less damaging to the aquatic environment, will be considered.

Mitigation. The Corps requires that applicants consider and use all reasonable and practical measures to avoid and minimize impacts to aquatic resources. If the applicant is unable to avoid or minimize all impacts, the Corps may require compensatory mitigation. The applicant has propose on site restoration of the existing slough

OTHER GOVERNMENTAL AUTHORIZATIONS: Water quality certification or a waiver, as required under Section 401 of the Clean Water Act from the California Regional Water Quality Control Board Central Valley Region is required for this project. The applicant has indicated they have applied for certification.

HISTORIC PROPERTIES: The Corps will initiate consultation with the State Historic Preservation Officer under Section 106 of the National Historic Preservation Act, as appropriate.

ENDANGERED SPECIES: The proposed activity may affect Federally-listed endangered or threatened species or their critical habitat. The Corps will initiate consultation with the U.S. Fish and Wildlife Service and/or the National Marine Fisheries Service, pursuant to Section 7 of the Endangered Species Act, as appropriate.

ESSENTIAL FISH HABITAT: The proposed project may adversely affect Essential Fish Habitat. The Corps will initiate consultation with the National Marine Fisheries Service, pursuant to Magnuson-Stevens Fishery Conservation and Management Act, as appropriate.

The above determinations are based on information provided by the applicant and our preliminary review.

EVALUATION FACTORS: The decision whether to issue a permit will be based on an evaluation of the probable impacts, including cumulative impacts, of the described activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit, which reasonably may be expected to accrue from the described activity, must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the described activity will be considered, including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, floodplain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, consideration of property ownership and, in general, the needs and welfare of the people. The activity's impact on the public interest will include application of the Section 404(b)(1) guidelines promulgated by the Administrator, Environmental Protection Agency (40 CFR Part 230).

The Corps is soliciting comments from the public, Federal, State, and local agencies and officials, Indian tribes, and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the Corps to determine whether to issue, modify, condition, or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National

Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

SUBMITTING COMMENTS: Written comments, referencing Public Notice SPK-200400520 must be submitted to the office listed below on or before March 14, 2008.

William H. Guthrie, Project Manager
US Army Corps of Engineers, Sacramento District
Sacramento Office

Email: william.h.guthrie@usace.army.mil

The Corps is particularly interested in receiving comments related to the proposal's probable impacts on the affected aquatic environment and the secondary and cumulative effects. Anyone may request, in writing, that a public hearing be held to consider this application. Requests shall specifically state, with particularity, the reason(s) for holding a public hearing. If the Corps determines that the information received in response to this notice is inadequate for thorough evaluation, a public hearing may be warranted. If a public hearing is warranted, interested parties will be notified of the time, date, and location. Please note that all comment letters received are subject to release to the public through the Freedom of Information Act. If you have questions or need additional information please contact the applicant or the Corps' project manager William H. Guthrie, (916)557-5269, william.h.guthrie@usace.army.mil.
