Date: December 30, 2004

Expires: June 30, 2005

Regional General Permit 16 for Lake Tahoe Expiration Date Extended

In 1989, the District Engineer (DE) issued Regional General Permit 16 (GP 16) to authorize minimal impact activities in the Lake Tahoe Basin. GP 16 has been renewed every 5 years, with minor changes, following public review.

The current GP 16 expired on August 11, 2004, and was extended until December 30, 2004. The DE is in the process of revising the procedures, terms, and conditions set forth in GP 16. While this review is underway, the current GP 16 is extended until June 30, 2005, unless the revised GP 16 is issued before that date. Note that the proposed, revised GP 16 will be circulated to the public and resource agencies for comment before a final decision is made by the DE concerning any GP 16 revisions.

The current GP 16 may be viewed at the District web site:
