

# Public Notice

US Army Corps  
of Engineers  
Sacramento District  
1325 J Street  
Sacramento, CA 95814-2922

Date: May 19, 2008  
Comments Due: N/A

**SUBJECT:** The U.S. Army Corps of Engineers, Sacramento District, (Corps) is announcing the closure of the Frisco, Colorado Regulatory Office, and the relocation of regulatory servicing for **Grand** and **Summit** Counties in addition to **Eagle** County to the Grand Junction, Colorado office. The **effective date is May 27, 2008.**

**OLD LOCATION:** Sacramento District U.S. Army Corps of Engineers  
Frisco Colorado Regulatory Office, Attn: Nicholas A. Mezei  
Mailing:: P.O. Box 607, Frisco, Colorado.  
Physical:: 301 West Main St., Suite 202, Frisco, Colorado 80443  
Phone:: 970-668-9676

**NEW LOCATION:** Sacramento District, U.S. Army Corps of Engineers  
Colorado West Branch, Attn: Nicholas A. Mezei  
Mailing & Physical: 400 Rood Avenue, Room 142  
Grand Junction, Colorado 81501

**Phone:** 907-243-1199, also 970-243-7453

**Fax** 970-241-2358

**E-mail:** [Nick.Mezei@usace.army.mil](mailto:Nick.Mezei@usace.army.mil)

**District Web Site** <http://www.spk.usace.army.mil/regulatory.html>

**ADDITIONAL INFORMATION:** The consolidation of the Frisco Office with the Grand Junction office will provide more efficient servicing of the public via administrative assistance not currently available in the Frisco office. It will also provide more efficient expenditure of resources especially during the protracted winter season in the high country. Servicing of Grand, Summit, and Eagle counties will continue via communication lines to the Grand Junction Office, and consolidated field visits from Grand Junction as needed during the field season. There will be a minor interruption of service during relocation before the Memorial Day holiday.

The Corps appreciates the opportunity to serve you. Please do not hesitate to contact the Grand Junction office for questions or comments related to our congressional mandate to permit reasonable uses of private and public aquatic lands while protecting the aquatic environment under Section 404 of the Clean Water Act.

Thank you for your understanding and cooperation.
