3D rendering of the proposed new Isabella Dam emergency spillway and labyrinth weir.
INTRODUCTION

We continue to be asked to do more for our Nation. What an extraordinary set of challenges and opportunities the Sacramento District has seen over the last year. We’ve responded to an unprecedented number of disasters, helping Americans rebuild after hurricanes and wildfires. Additionally, last year marked the completion of one mega project, the Folsom Dam Auxiliary Spillway, and in 2018 we start construction on another, the Isabella Lake Dam Safety Modification Project.

The importance and need for these public flood risk reduction projects has further been underscored by last year’s flooding following the record drought and also the state-level infrastructure challenges in California.

Rest assured, we at the Corps always place the safety and security of our Nation first and will continue Building Strong!

If you have any questions or comments, contact our Public Affairs Office directly at (916) 557-5100 or spk-pao@usace.army.mil

Col. David Ray
Sacramento District Commander
Facts & Figures
(as of March 2018)
- 2nd largest district geographically in the United States
- 290,000 square mile area of responsibility
- Serving 8 western states
- Approximately 1,000 civilian and military employees

Map Legend
- District Headquarters
- Dam Safety & Maintenance (17)
- Parks & Recreation (10)
- Civil Works Project or Other Support (5)
- Military Construction & Support (28)
- Regulatory (6)
- Civil Works & Military Construction Boundaries
- Military Design Boundaries
- Regulatory Boundaries
- River
- USACE Owned-Operated Reservoir
- Other Reservoir or Natural Lake

Overview Map
**NEWS HIGHLIGHTS**

*by popularity*

1. **WOW! First look at water flowing through the Folsom Dam Spillway** (May 2017)
   This test release was with just one of the six gates open.

2. **Helping our state partners during the Oroville Dam emergency** (Jan. 2017)
   Geology and engineering experts from our district were part of the assessment team.

   The new spillway project is complete! We’ve been documenting our progress on the spillway since we took over in 2011.

4. **High water flows over North Fork Dam** (Jan. 2017)
   The dam above Auburn, California was a sight to behold. We built it back in 1939 to catch Gold Rush mining debris.

5. **Northern California Wildfire Response** (Jan. 2018)
   We’ve been given the mission to remove fire debris in Sonoma, Napa, Lake, and Mendocino counties.

6. **Folsom Dam construction 63 years ago** (April 2017)
   Folsom Dam, completed in 1955, will get extra help from the new spillway we’ve built nearby, reducing the region’s flood risk.

7. **Construction can now start on one of the most at-risk dams in the nation** (Sept. 2017)
   We awarded a $204 million contract to begin work on Isabella Dam modifications.

8. **Kid’s Fishing Day** (April 2017)
   This popular event is free and open to children 15 years and under. Bring your kids and show them the vast natural beauty California has to offer.

9. **We do more than dams and levees. Get up to speed...** (March 2017)
   We’ve just updated our mission video to give you the latest info about all we do to provide engineering solutions for our nation.

10. **Bring Your Kids to Work Day** (April 2017)
    Our kids learned how careers in science, technology, engineering or math help the nation, and also answered some tough questions on camera.

*based on Facebook posts’ reach from Jan. 1, 2017 to March 1, 2018.*
The following list shows only some of the current military construction projects. Information about other past, ongoing or future projects can be obtained by contacting (916) 557-5100. Project data contain best estimates and are subject to change based on yearly appropriations.

From new hangars to mission command centers, training facilities, infrastructure repairs and projects that improve installation energy resilience, the military branch of the U.S. Army Corps of Engineers Sacramento District provides planning, engineering, project management, environmental restoration and construction services to both Army and Air Force installations. Additionally, the military branch performs environmental clean up for Formerly Used Defense Sites and other specified military sites.

</table>
The U.S. Army Corps of Engineers Sacramento District has the great privilege of working with the Department of Veterans Affairs to build medical facilities that serve our veterans. We provide project management and construction management support in Northern California and portions of Nevada, Utah and Colorado.

The Veterans Affairs facilities in Northern California alone serve an area of more than 377,700 veterans dispersed over a wide geographic area of approximately 40,000 square miles.

The graphics below provide a general overview of some of our major past, present and future planned VA projects.

**Alameda Point**
112-acre outpatient clinic, columbarium and administrative offices. Expected completion 2024.

**Livermore Realignment & Closure**

**Reno Clinical Expansion**

**Salt Lake City**
New outpatient mental health clinic, part of the George E. Wahlen Department of Veterans Affairs Medical Center. Completed 2011.

**Grand Junction**
New 30,000-square-foot surgery floor addition to the existing medical center. Completed 2012.

### PROJECT STUDY AREA YUBA RIVER WATERSHED

- 1,340 square miles
- 178 acres of proposed aquatic/riparian habitat restoration
- Watershed includes two Corps-owned dams (Englebright and Daguerre Point)

### EMERGENCY OPERATIONS | LEVEE REHABILITATION

Record precipitation and high water in 2017 damaged levees throughout California’s Sacramento and San Joaquin River Basins. The Sacramento District is repairing damaged sites that are eligible for rehabilitation under Public Law 84-99. Here’s a summary of our response to date:

- 50 damaged sites eligible for repair
- 15 highest risk sites repaired in 2017
- All repairs expected to be complete in 2019
- Sites spread across 14,400 square miles
- Over 180 employees support mission
The U.S. Army Corps of Engineers is working under the direction of the Federal Emergency Management Agency and in partnership with the California Governor’s Office of Emergency Services to respond to the devastating Northern California wildfires, which began in October 2017. Our number one priority continues to be the life, health and safety of all who are affected by the fires.

**AREA IMPACTED**

8900 structures and homes destroyed.

**PERSONNEL**

Over 275 Sacramento District employees deployed.

**DEBRIS REMOVAL STATS**

Nearly 2 million tons of debris is expected to be removed (equal to the weight of about 2 Golden Gate bridges).

A before and after comparison of debris removal shows progress on a property in Santa Rosa, California. Final steps on many properties will include hydro-seeding, final inspection and clearance for the owner to rebuild. Photos by Rick Brown.

Corps’ contractors remove debris in Lake County, California, Jan. 7, 2018. Photo by Carol Vernon.
USACE is one of the nation’s leading federal providers of outdoor recreation.

OUR PARKS AT A GLANCE & THEIR VALUE TO THE NATION

Sacramento District (California’s Central Valley)
• Manages 10 parks
• Stewards of 45,266 acres of public lands
• 2.5 million visitors annually

Corps (Nationwide)
• Manages more than 400 parks
• Stewards of nearly 12 million acres of public lands
• 250 million visitors annually

PARKS & RECREATION

Visit PleaseWearIt.com for more safety tips.
Water Safety Tips

- Wearing a life jacket can save your life
- Prepare for sudden weather changes
- Never exceed your swimming abilities or swim alone
- Don’t rock your boat
- Don’t dive in lakes and rivers
- Obey all signs and buoys

Visit PleaseWearIt.com for more safety tips
Issues permits for authorized construction, dredging and other activities in or near federally regulated waterways and wetlands.

Conducts investigations of potential unauthorized activities impacting federally regulated waterways or wetlands.

Example Activities Requiring Permits:
- Pier construction, boat ramps, pipeline crossings
- Residential, commercial, institutional or recreational developments
- Excavation, filling, or other modifications to navigable waters and adjacent wetlands

PERMIT PROCESS

* The following flowchart only shows the basic steps for a standard individual permit. The process and steps may vary depending on the type of permit and size of the project or activity.

1. Is the project in U.S. waters or wetlands?
   - Yes
   - No

2. Is the proposed activity regulated?
   - Yes
   - No

3. Can impacts be avoided?
   - Yes
   - No

4. Submit permit application

5. Environmental Review
   - Public Notice
   - Public Interest Review
   - Alternative Development & Screening
   - Compensatory Mitigation

6. Permit Decision

SACRAMENTO DISTRICT PROGRAM SUMMARY

- Operates 6 field offices across 4 states
- Employs 59 project managers with expertise in natural sciences
- Issued 806 permits in FY2016 and 1,113 in FY2017

Visit spk.usace.army.mil/missions/regulatory for more info
The Leadership Development Program (LDP) is a U.S. Army Corps of Engineers-funded program that teaches employees new skills to help them grow, succeed and tackle real workplace challenges at all levels. The program consists of three tiers.

### TIER 1
Offers employees an introductory opportunity to “test the waters” of USACE leadership development. Participants will gain self-awareness and learn skills to improve personal and professional relationships and productivity.

**Duration:** Approx. 5 months

*An LDP Tier 1 participant climbs a rope course during an offsite team building event, Jan. 21, 2016. Photo by Kevin Vestal.*

### TIER 2
Participants research and lead discussions on leadership topics including communication, conflict, change, decision-making, and others. They practice these skills inside and outside the classroom, and while working on a special project for the district throughout the program.

**Duration:** Approx. 9 months

*LDP Tier 2 graduates, June 22, 2016. Photo by Kevin Vestal.*

### TIER 3
Challenges participants to lead teams, work groups, or sections at the regional and national level. Participants manage a long-term project to improve the organization after they graduate.

**Duration:** Approx. 2 years

Strategic direction and vision to provide innovative and enduring engineering solutions to the nation.
