Content

- Complete Pre-Construction Notification (PCN) for Nationwide Permits in California
- Complete notification for Regional General Permit (RGP) 5, *Small Erosion Repair Program*
- Complete notification for RGP 8, *Emergency Actions*
- Complete Application for Section 404 Letter of Permission
- Complete Application for Standard Permit
Pre-Construction Notification

- A pre-construction notification (PCN) is a notification to Corps of the intent to construct a project under a specific Nationwide Permit (NWP)

- How to determine if PCN is required:
  - NWP terms identify whether PCN is required for NWP
  - General Conditions (GC) may include additional PCN requirements (e.g. GC 18 and 20)
  - Regional Conditions (RC) may include additional PCN requirements
PCN Requirements

General Conditions

▪ GC 31
  ► Name, address, phone number
  ► Location of project
  ► Description of proposed project
    • Purpose
    • Direct and indirect adverse environmental effects, including amount of “loss” of WOUS in acres, linear feet
    • Any other NWPs, RGPs, or IPs used or intended to be used
    • Sufficiently detailed to allow DE to determine adverse effects
    • Sketches should be provided when necessary
  ► Delineation of wetlands, special aquatic sites and other waters
    • Prepared in accordance with current method required by Corps
  ► If >1/10 acre of loss of wetlands, and PCN required, statement of how mitigation will be satisfied or why should not be required
PCN Requirements

- GC 31
  - If listed species or critical habitat affected/in vicinity, names of species that might be affected. Federal applicants provide documentation of compliance
  - If activity may affect historic property, state which property may be affected by proposed work. Federal applicants provide documentation for compliance

Regional Conditions

- CA RC 1
  - SPD PCN Checklist or DA 4345 with attachment providing information on compliance with all General and Regional Conditions
  - Written statement on how activity has been designed to avoid and minimize temporary and permanent adverse effects to WOUS
  - Plan and cross-section view drawings of the project, meeting current standards
  - Numbered and dated pre-project color photos with compass angle and position identified on plan-view drawings
PCN Requirements

- **CA RC 5**
  - For temporary fills PCN includes
    - Description of temporary fill
    - Type and amount of material to be placed
    - Area proposed to be impacted
    - Proposed plan for restoration to pre-project contours and conditions, including re-vegetation
    - Reasons why avoidance of temporary impacts not practicable

- **CA RC 19**
  - For NWPs 13 and 14: request to utilize non-vegetated techniques for bank stabilization must include information on why the sole use of vegetated techniques is not practicable
PCN Requirements

- CA RC 23
  - Requests to waive 300 lf limit for NWPs 21, 29, 39, 40, 42, 43, 44, 50, 51, and 52 or to waive 500 lf limit along the bank for NWP 13
    - Narrative description of stream
      - Volume and duration of flow
      - Approximate length, width, depth of waterbody
      - Characteristic associated with ordinary high water mark (e.g. bed and bank, wrack line or scour marks)
      - Description of adjacent vegetation community
      - Statement regarding wetland status of adjacent area
      - Surrounding land use
      - Water quality
      - Issues related to cumulative impacts in watershed
      - Any other relevant information
    - Analysis of proposed impacts to the waterbody per GC 31 and RC 1
    - Measures taken to avoid and minimize losses of waters of the U.S., including other methods of constructing activity
    - Compensatory mitigation plan
U.S. Army Corps of Engineers
South Pacific Division

Nationwide Permit Pre-Construction Notification (PCN) Form

This form integrates requirements of the U.S. Army Corps of Engineers Nationwide Permit Program within the South Pacific Division (SPD), including General and Regional Conditions. You MUST fill out all boxes related to the work being done. Fillable boxes in this form expand if additional space is needed.

**Box 1 Project Name**

<table>
<thead>
<tr>
<th>Applicant Name</th>
<th>Applicant Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>Applicant Company, Agency, etc.</td>
<td>Applicant’s internal tracking number (if any)</td>
</tr>
</tbody>
</table>

Mailing Address

<table>
<thead>
<tr>

<thead>
<tr>
<th>Relationship of applicant to property:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Owner</td>
</tr>
</tbody>
</table>

Application is hereby made for verification that subject regulated activities associated with subject project qualify for authorization under a U.S. Army Corps of Engineers Nationwide Permit or Permits as described herein. I certify that I am familiar with the information contained in this application and, that to the best of my knowledge and belief, such information is true, complete, and accurate. I further certify that I possess the authority to undertake the proposed activities. I hereby grant to the agency to which this application is made the right to enter the above-described location to inspect the proposed, in-progress or completed work. I agree to start work only after all necessary permits have been received and to comply with all terms and conditions of the authorization.

**Signature of applicant**

Date (mm/dd/yyyy)

If anyone other than the person named as the Applicant will be in contact with the U.S. Army Corps of Engineers representing the applicant regarding this project during the permit process, Box 2 MUST be filled out.

**Box 2 Authorized Agent/Operator Name**

<table>
<thead>
<tr>
<th>Agent/Operator Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>E-mail Address</td>
</tr>
</tbody>

</thead>
</table>

I hereby authorize the above named authorized agent to act in my behalf as my agent in the processing of this application and to furnish, upon request, supplemental information in support of this permit application. I understand that I am bound by the actions of my agent and I understand that if a federal or state permit is issued, I, or my agent, must sign the permit.

**Signature of applicant**

Date (mm/dd/yyyy)

I certify that I am familiar with the information contained in this application and that to the best of my knowledge and belief, such information is true, complete, and accurate.

**Signature of authorized agent**

Date (mm/dd/yyyy)
### Box 3 Name of Property Owner(s), if other than Applicant:

<table>
<thead>
<tr>
<th>Owner Title</th>
<th>Owner Company, Agency, etc.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>

<th>Mobile Phone with area code</th>
<th>Home Phone with area code</th>
</tr>
</thead>
</table>

### Box 5 Site Number __ of __. Project location(s), including street address, city, county, state, zip code where proposed activity will occur:

- **Waterbody** (if known, otherwise enter "an unnamed tributary to");

  Tributary to what known, downstream waterbody:

  - Latitude & Longitude (USGS, NAD83, or UTM with Zone): Section, Township, Range:
  - County Assessor Parcel Number (Include County name): USGS Quadrangle map name:

- Size of permit area or project boundary: acres linear feet

- Directions to the project location and other location descriptions, if known:

- **Nature of Activity** (Description of the project, include all features):

- **Project Purpose** (Description of the reason or purpose of the project):
**Box 6 Reason(s) for discharge into Waters of the United States**

(Description of why dredged and/or fill material needs to be placed in Waters of the United States):

| Proposed discharge of dredge and/or fill material. Indicate total surface area in acres and linear feet (where appropriate) of the proposed impacts to Waters of the United States, indicate water body type (tidal wetland, non-tidal wetland, riparian wetland, ephemeral stream/river, intermittent stream/river, perennial stream/river, pond/lake, vegetated shallows, bay/harbor, lagoon, ocean, etc.), and identify the impact(s) as permanent and/or temporary for each requested Nationwide Permit.

Enter the intended permit number(s). See Nationwide Permit regulations for permit numbers and qualification information: http://www.usace.army.mil/Missions/EnvironmentalRegulatoryPrograms/NationalwidePermits.aspx

Activity requires a written waiver to exceed specified limits or the Nationwide Permit? Yes ☐ No ☐

If yes, provide Nationwide Permit number and name, limit to be exceeded, and rationale for each requested waiver:

Activity will result in the loss of greater than ½-acre of Waters of the United States? Yes ☐ No ☐

If yes, provide an electronic copy (compact disc) or multiple hard copies (7) of the complete PCN for appropriate Federal and State Pre-discharge Notification (See General Condition #31, Pre-construction Notification, Agency Coordination, Section 2 and 4).
Describe direct and indirect effects caused by the activity and how the activity has been designed (or modified) to have minimal adverse effects on the aquatic environment (See General Condition #31, Pre-construction Notification, District Engineer’s Decision, Section 1):

Potential cumulative impacts of proposed activity (if any):

| Required drawings and figures (see each U.S. Army Corps of Engineers District’s Minimum Standards Guidance): |
| Vicinity map: [ ] Attached (or mail copy separately if applying electronically) |
| To-scale Plan view drawing(s): [ ] Attached (or mail copy separately if applying electronically) |
| To-scale elevation and/or Cross Section drawing(s): [ ] Attached (or mail copy separately if applying electronically) |
| Numbered and dated pre-project color photographs: [ ] Attached (or mail copy separately if applying electronically) |
| Sketch drawing(s) or map(s): [ ] Attached (or mail copy separately if applying electronically) |

Has a wetlands/waters of the U.S. delineation been completed?
[ ] Yes, Attached² (or mail copy separately if applying electronically) [ ] No
If a delineation has been completed, has it been verified in writing by the Corps?
[ ] Yes, Date of preliminary or approved jurisdictional determination (mm/dd/yyyy): Corps file number: [ ] No

For proposed discharges of dredged material resulting from navigation dredging into inland or nearshore waters of the U.S. (including beach nourishment), please attach to a proposed Sampling and Analysis Plan (SAP) prepared according to Inland Testing Manual (ITM) guidelines (including Tier I information, if available), or if disposed offshore, a proposed SAP prepared according to the Ocean Disposal Manual. [ ] Attached (or mail copy separately if applying electronically)

Is any portion of the work already complete? [ ] YES [ ] NO
If yes, describe the work:

**Box 7 Authority:**

Is Section 10 of the Rivers and Harbors Act applicable?: [ ] YES [ ] NO
Is Section 404 of the Clean Water Act applicable?: [ ] YES [ ] NO

Is the project located on U.S. Army Corps of Engineers property or easement?: [ ] YES [ ] NO
If yes, has Section 408 process been initiated?: [ ] YES [ ] NO
Would the project affect a U.S. Army Corps of Engineers structure?: [ ] YES [ ] NO
If yes, has Section 408 process been initiated?: [ ] YES [ ] NO

Is the project located on other Federal Lands (USFS, BLM, etc.)?: [ ] YES [ ] NO
Is the project located on Tribal Lands?: [ ] YES [ ] NO

**Box 8** Is the discharge of fill or dredged material for which Section 10/404 authorization is sought part of a larger plan of development?: [ ] YES [ ] NO
If discharge of fill or dredged material is part of development, name and proposed schedule for that larger development (start-up, duration, and completion dates):
Location of larger development (if discharge of fill or dredged material is part of a plan of development, a map of suitable quality and detail of the entire project site should be included):

Box 9 Measures taken to avoid and minimize impacts to waters of the United States:

Box 10 Proposed Compensatory Mitigation related to fill/excavation and dredge activities. Indicate in acres and linear feet (where appropriate) the total quantity of Waters of the United States proposed to be created, restored, enhanced and/or preserved for purposes of providing compensatory mitigation. Indicate water body type (total wetland, non-total wetland, riparian wetland, ephemeral stream/river, intermittent stream/river, perennial stream/river, pond/lake, vegetated shallow, bay/harbor, lagoon, ocean, etc.) or non-jurisdictional (uplands\(^5\)). Indicate mitigation type (permittee-responsible on-site/off-site, mitigation bank, or in-lieu fee program). If the mitigation is purchase of credits from a mitigation bank, indicate the bank to be used, if known:

<table>

</table>

If no mitigation is proposed, provide detailed explanation of why no mitigation would be necessary:

If permittee-responsible mitigation is proposed, provide justification for not utilizing a Corps-approved mitigation bank or in-lieu fee program:

Has a draft/conceptual mitigation plan been prepared in accordance with the April 10, 2008, Final Mitigation Rule\(^4\) and District Guidelines?

\(^4\)http://www.usace.army.mil/Missions/CivilWorks/RegulatoryPrograms/Permits/mitig_info.aspx

- [ ] Yes, Attached (or mail copy separately if applying electronically)
- [ ] No

If no, a mitigation plan must be prepared and submitted, if applicable.

Mitigation site(s) Latitude & Longitude (D/M/S, DD, or UTM with Zone):

USGS Quadrangle map name(s):

Assessor Parcel Number(s):

Section(s), Township(s), Range(s):

Page 5 of 9

Revised March 21, 2012. For the most recent version of this form, visit your Corps District’s Regulatory website.
Box 11  Threatened or Endangered Species

Please list any federally-listed (or proposed) threatened or endangered species or critical habitat (or proposed critical habitat) within the project area (include scientific names (e.g., Genus species), if known):

a.  
b.  
c.  
d.  
e.  
f.  

Have surveys, using U.S. Fish and Wildlife Service/NOAA Fisheries protocols, been conducted?  
☐ Yes, Report attached (or mail copy separately if applying electronically)  ☐ No

If a federally-listed species would be impacted, please provide a description of the impact and a biological evaluation, if available.

☐ Yes, Report attached (or mail copy separately if applying electronically)  ☐ Not attached

Has Section 7 consultation been initiated by another federal agency?  
☐ Yes, Initiation letter attached (or mail copy separately if applying electronically)  ☐ No

Has Section 10 consultation been initiated for the proposed project?  
☐ Yes, Initiation letter attached (or mail copy separately if applying electronically)  ☐ No

Has the USFWS/NOAA Fisheries issued a Biological Opinion?  
☐ Yes, Attached (or mail copy separately if applying electronically)  ☐ No

If yes, list date Opinion was issued (m/d/yyyy):

Box 12  Historic properties and cultural resources:

Are any cultural resources of any type known to exist on-site?  ☐ Yes  ☐ No

Please list any known historic properties listed, or eligible for listing, on the National Register of Historic Places:

a.  
b.  
c.  
d.  
e.  
f.  

Has a cultural resource records search been conducted?  
☐ Yes, Report attached (or mail copy separately if applying electronically)  ☐ No

Has a cultural resource pedestrian survey been conducted for the site?  
☐ Yes, Report attached (or mail copy separately if applying electronically)  ☐ No

Has another federal agency been designated the lead federal agency for Section 106 consultation?  
☐ Yes, Designation letter/email attached (or mail copy separately if applying electronically)  ☐ No

Has Section 106 consultation been initiated by another federal agency?  
☐ Yes, Initiation letter attached (or mail copy separately if applying electronically)  ☐ No

Has a Section 106 MOA or PA been signed by another federal agency and the SHPO?  
☐ Yes, Attached (or mail copy separately if applying electronically)  ☐ No

If yes, list date MOA or PA was signed (m/d/yyyy):

Other location descriptions, if known:

Directions to the mitigation location(s):
Box 13 Section 401 Water Quality Certification:
Applying for certification? ☐ Yes, Attached (or mail copy separately if applying electronically) ☐ No
Certification issued? ☐ Yes, Attached (or mail copy separately if applying electronically) ☐ No
Certification waived? ☐ Yes, Attached (or mail copy separately if applying electronically) ☐ No
Certification denied? ☐ Yes, Attached (or mail copy separately if applying electronically) ☐ No
Exempted activity? ☐ Yes ☐ No
Agency concurrence? ☐ Yes, Attached ☐ No
If exempt, state why:

Box 14 Coastal Zone Management Act:
Is the project located within the Coastal Zone? ☐ Yes ☐ No
If yes, applying for a coastal commission-approved Coastal Development Permit? ☐ Yes, Attached (or mail copy separately if applying electronically) ☐ No
If no, applying for separate CZMA-consistency certification? ☐ Yes, Attached (or mail copy separately if applying electronically) ☐ No
Permit/Consistency issued? ☐ Yes, Attached (or mail copy separately if applying electronically) ☐ No
Exempt? ☐ Yes ☐ No
Agency concurrence? ☐ Yes, Attached ☐ No
If exempt, state why:

</tr>
<tr>
<td></td>
<td>□ Crossings of perennial or intermittent waters.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ Activities within 100 feet of a natural spring.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ Activities located in areas designated as EFH.</td>
<td></td>
</tr>
<tr>
<td>☐</td>
<td>3. Recordation. Permittee will record the NWP verification.</td>
<td>The proposed project does not involve the designation of a preserve or a structure in a navigable water. A COI is required to record the NWP verification with the Register of Deeds.</td>
</tr>
<tr>
<td>☐</td>
<td>4. Avoided Waters. Permittee shall:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ Establish &amp; maintain a preserve.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ Place avoided waters &amp; buffers into a separate parcel; and</td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ Establish permanent legal protection.</td>
<td></td>
</tr>
<tr>
<td>☐</td>
<td>5. Temporary fill. PCN must include:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ Avoidance practicability statement.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ Description of the fill.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ Plan for restoration and/or revegetation.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Permittee will:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ Use clean &amp; washed gravel,</td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ Place a horizontal marker.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ Remove all temporary fill within 30 days.</td>
<td></td>
</tr>
<tr>
<td>Check</td>
<td>Regional Condition</td>
<td>Compliance Rationale</td>
</tr>
<tr>
<td>-------</td>
<td>-----------------------------------------------------------------------------------</td>
<td>---------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>6. Stream Crossings.</td>
<td>For Federally-listed fish species habitat, span the stream or river, or use bottomless arch culvert. Ensure only minor impacts would occur to fish and wildlife passage or expected high flows. No work within standing or flowing waters. Dewatering plans must be approved by the Corps. Will comply with Regional Condition 19. Will not result in a reduction of bankfull width or depth of streams or negatively alter the flood control capacity.</td>
<td></td>
</tr>
<tr>
<td>7. Lead Federal Agency. Must submit documentation pertaining to the Corps Permit Area for ESA and Area of Potential Effect for NEPA.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>9. Permitee Responsible Mitigation. Must submit a final compensatory mitigation &amp; monitoring plan.</td>
<td>The activity does not involve permittee responsible mitigation. OR A final mitigation and monitoring plan will be submitted prior to initiation of construction activities. OR A final mitigation and monitoring plan has been submitted with the PCA.</td>
<td></td>
</tr>
<tr>
<td>10. Mitigation. Must complete mitigation construction before or concurrent with commencement of project construction and submit proof of mitigation bank or ILF payment.</td>
<td>I agree to comply with this condition.</td>
<td></td>
</tr>
<tr>
<td>11. Contractor Awareness. Responsible for awareness and shall ensure permit &amp; drawing availability.</td>
<td>I agree to have a copy of the permit and drawings available for review of the project etc.</td>
<td></td>
</tr>
<tr>
<td>12. Limits of Disturbance. Must clearly identify &amp; ensure no work takes place outside of limits.</td>
<td>The project limits will be clearly identified in the field.</td>
<td></td>
</tr>
<tr>
<td>13. Notification. Must notify 10 days prior to initiation of project construction.</td>
<td>I agree to comply with this condition.</td>
<td></td>
</tr>
<tr>
<td>14. Inspections. Must allow inspection of activity(s).</td>
<td>I agree to allow Corps representatives to inspect the project and any affected mitigation areas.</td>
<td></td>
</tr>
<tr>
<td>15. Mather Core Recovery Area (Sacramento County), NWP 14 (see list) revoked from use in vernal pools.</td>
<td>The activity does not involve impacts to vernal pools in the Mather Core Recovery Area. OR The activity would not involve the use of NWP 14, 18, 23, 39, 40, 42, 43 a or 44.</td>
<td></td>
</tr>
<tr>
<td>16. Legal Delta, NWP 4 (see list) revoked.</td>
<td>The activity does not involve impacts in the Legal Delta. OR The activity would not involve the use of NWP 38 or 39.</td>
<td></td>
</tr>
<tr>
<td>17. Secondary Zone, Impacts must be mitigated within the Secondary Zone of the Legal Delta.</td>
<td>The activity would not occur within the Secondary Zone of the Legal Delta. OR I agree to comply with this condition.</td>
<td></td>
</tr>
<tr>
<td>18. NWP 12 (Utility Lines). Activity will not drain wetlands or waters. Permittee will stockpile top 6-12” of topsoil. Permittee will replace topsoil, and then re-seed. PCN must be submitted when a utility line: Results in a discharge of fill into perennial or intermittent waters, or special aquatic sites Results in a discharge of fill into greater than 100 linear feet of ephemeral waters: Includes construction of an access road, substation or foundation within waters, or Does not involve restoration of trenches to pre-project contours and conditions.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Check</td>
<td>Regional Condition</td>
<td>Compliance Rationale</td>
</tr>
<tr>
<td>-------</td>
<td>--------------------</td>
<td>----------------------</td>

| 26. All NWP’s. All NWP’s except (see list) are revoked for activities in histosols, fens, bogs and peatlands, and in wetlands contiguous with fens. | | The activity would not occur in a histosols, fen, bog, peatland or wetland contiguous with a fen. OR The activity would involve the use of NWP _.
LIST OF ADDITIONAL INFORMATION REQUIRED FOR COMPLETE PRE-CONSTRUCTION NOTIFICATION FOR CALIFORNIA, NEVADA, AND UTAH

PRE-CONSTRUCTION NOTIFICATION FOR A DEPARTMENT OF THE ARMY NATIONWIDE PERMIT

A complete PCN may be submitted either through the completion of the South Pacific Division Preconstruction Notification (PCN) Checklist, or a signed application form (ENG Form 4345)* with an attachment providing information on compliance with all general and regional conditions.

Requirements of General Condition 31

- Name, address and telephone numbers of the prospective permittee
- Location of the proposed project
- Description of the proposed project
- Purpose of the proposed project
- Direct and indirect adverse environmental effects the project would cause
- The anticipated amount of loss of water of the U.S. expected to result from the NWP activity, in acres or linear feet
- Any other NWP(s), regional general permit(s) or individual permit(s) used or intended to be used to authorize any part of the proposed project or any related activity
- Sketches containing sufficient detail to provide an illustrative description of the proposed activity
- Delineation of wetlands, other special aquatic sites, and other waters, such as lakes and ponds, and perennial, intermittent, and ephemeral streams, on the project site, prepared in accordance with the current method required by the Corps.
- A statement describing how mitigation requirements will be satisfied, or explaining why the adverse effects are minimal and why compensatory mitigation should not be required
- The name(s) of endangered or threatened species that might be affected by the proposed work, or utilize the designated critical habitat that may be affected by the proposed work, or, for Federal agencies, documentation demonstrating compliance with the Endangered Species Act
- A statement on which historic property(s) may be affected by the proposed work, or a vicinity map indicating the location of the historic property, or, for Federal agencies, documentation demonstrating compliance with the National Historic Preservation Act.

Requirements of Regional Condition 1

- A complete South Pacific Division Preconstruction Notification (PCN) Checklist or signed application form (ENG Form 4345) with an attachment providing information on compliance with all of the general and regional conditions
- A written statement describing how the activity has been designed to avoid and minimize adverse effects, both temporary and permanent, to waters of the U.S.
- Drawings clearly depicting the location, size and dimensions of the proposed activity, as well as the location of waters of the U.S. on the site
  - Plan view
  - Title Block
  - Legend and Scale
Complete PCN √ List

- Amount (in cubic yards) of fill in Corps jurisdiction, including permanent and/or temporary structure or fills
- Area (in acres) of fill in Corps jurisdiction, including permanent and/or temporary structure or fills
- Ordinary high water mark, or, for tidal waters, mean high water mark and high tide line, based on National Geodetic Vertical Datum (NGVD) or other appropriate reference elevation.

- Cross-section view
  - Title Block
  - Legend and Scale
- Amount (in cubic yards) of fill in Corps jurisdiction, including permanent and/or temporary structure or fills
- Area (in acres) of fill in Corps jurisdiction, including permanent and/or temporary structure or fills
- Ordinary high water mark, or, for tidal waters, mean high water mark and high tide line, based on National Geodetic Vertical Datum (NGVD) or other appropriate reference elevation.

- Numbered and dated pre-project color photographs showing a representative sample of waters proposed to be impacted on the site, and all waters of the U.S. proposed to be avoided on and immediately adjacent to the project site. The compass angle and view position of each photograph is identified on the required plan view drawing.

- Requirements for Temporary Fill
  - A Description of the temporary fill
    - Type and amount of material to be placed in waters of the U.S.
    - Area (in acres) of waters of the U.S. proposed to be impacted
    - Proposed plan for the restoration of the temporary fill area to pre-project contours and conditions
  - The reason(s) why avoidance of temporary impacts in waters of the U.S. is not practicable.

- Requirements for NWPs 13 and 14
  - Information on why the sole use of vegetated techniques is not practicable

- Requirements for NWP 23
  - A copy of the signed categorical exclusion document
  - Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 106 of the National Historic Preservation Act

- Requirements for Request for Waivers
  - A narrative description of the stream
    - Known information on volume and duration of flow
    - Known information on the approximate length, width and depth of the waterbody
    - Known information on characteristics observed associated with an ordinary high water mark
Complete PCN List

1. Description of the adjacent vegetation community
2. A statement regarding the wetland status of the adjacent areas (i.e. wetland, non-wetland)
3. Surrounding land uses
4. Water quality of the stream
5. Issues related to cumulative impacts in the watershed
6. An analysis of the proposed impacts to the waterbody
7. Measures taken to avoid and minimize losses to waters of the U.S., including other methods of constructing the proposed activity
8. A compensatory mitigation plan describing how the unavoidable losses are proposed to be offset, in accordance with 33 CFR 332

1 The South Pacific Division Preconstruction Notification (PCN) Checklist, may be downloaded from the USACE Sacramento District Website at: http://www.spk.usace.army.mil/organizations/crespk/regulatory/mwn.html

2 An Application for Department of the Army Permit (ENG Form 4345) may be downloaded from the USACE Sacramento District Website at: http://www.spk.usace.army.mil/organizations/crespk/regulatory/application.html
LIST OF ADDITIONAL INFORMATION RECOMMENDED TO EXPEDITE EVALUATION OF NWP PRE-CONSTRUCTION NOTIFICATIONS

- Endangered Species
  - Information sufficient to initiate consultation with the United States Fish and Wildlife Service and/or National Marine Fisheries Service for compliance with Section 7 of the Endangered Species Act. Information required includes:
    - A description of the action to be considered
    - A description of the specific area that may be affected by the action.
    - A description of any listed species or critical habitat that may be affected by the action.
    - A description of the manner in which the action may affect any listed species or critical habitat and an analysis of any cumulative impacts.
    - Relevant reports including any environmental impact statement, environmental assessment or biological assessment prepared.
    - Any other relevant available information on the action, the listed species, or critical habitat.
  - A Biological Assessment sufficient to initiate consultation for compliance with Section 7 of the Endangered Species Act, prepared in accordance with the attached United States Fish and Wildlife Service and National Marine Fisheries Service Template and Guidance on Preparing an Initiation Package for Endangered Species Act Consultation.

- Cultural Resources
  - A cultural resources report of archeological/historical resources on/near project site compiled from a record search by a qualified professional archeologist/historian at the regional center in your locale.
  - A Cultural Resources Report sufficient to initiate consultation for compliance with Section 106 of the National Historic Preservation Act of 1966, as amended, prepared in accordance with the attached Sacramento District Regulatory Branch Guidelines for Compliance with Section 106 of the National Historic Preservation Act of 1966, As Amended.

- Compensatory Mitigation
  - A Draft/Final Mitigation and Monitoring Plan for the proposed preserve or restoration areas, completed in accordance with the attached December 30, 2004 Mitigation and Monitoring Proposal Guidelines and Corps regulations found at 33 CFR 332. The plan shall include mitigation location and design drawings, vegetation plans, including target species to be planted, and final success criteria.
  - A Draft/Final Operations and Management Plan for the proposed preserve area, describing in detail any activities that are proposed within the preserve area(s) and the long term funding and maintenance of each of the preserve areas. An open space preserve operations and maintenance template is attached.

Other information: NOTE TO STAFF: SPECIFICALLY LIST OTHER REQUIRED INFORMATION AND DELETE THIS STATEMENT
RGP 5

- **RGP 5, Small Erosion Repair Program (SERP)**
  - Issued to the California Department of Water Resources
  - Issued May 6, 2014, Expires May 6, 2019
  - Authorizes activities within the Sacramento River Flood Control Project (SRFCP) under the SERP.
  - Authorizes the discharge of up to a maximum of 72,000 cubic yards (5 year total) of soil filled riprap, to repair a maximum of 15 sites each year over 5 years. Each site would involve the maximum of 0.5 acre (1,000 ft) of disturbance below the OHWM/MHWM/HTL for repair of small erosion sites along portions of the SRFCP. No project would exceed 0.5 acre of disturbance or would extend for more than 1,000 feet.
RGP 5

- Notification Requirements
  - Submit a completed and signed SERP Project Notification form requesting verification under the RGP (included in Section 5 of the SERP Manual)
  - Must submit a Notification Package containing
    - Completed SERP Project Notification Form
    - Description of how each site would comply with the conditions of the RGP
    - Vicinity map, plan-view, and cross-section drawings showing location, size, and dimensions of activity, OHWM, HTL/MHWM following current standards
    - Delineation of waters of the U.S., meeting current standards
    - Information sufficient to demonstrate compliance with USFWS and NMFS biological opinions
    - Description of measures taken to avoid and minimize impacts
    - Description of historic properties that may be affected
    - Pre-project color photographs of repair site, shoreline, upstream, downstream, and across channel (location identified on plan-view drawings)
    - Evidence have applied for and/or received required permits from CA State Lands Commission
RGP 8

- Regional General Permit (RGP) 8, *Emergency Actions*
  - Issued January 1, 2015, Expires December 31, 2019
  - Authorizes discharges of dredged or fill material into waters of the U.S. for emergency repair and rehabilitation of previously authorized, currently serviceable, structures or fills, in which the Corps determines an emergency action is necessary, provided the project is initiated within 7 days of receiving authorization from the Corps.
  - An emergency incident is an occurrence that presents a clear, sudden, unexpected, and imminent threat to life or property demanding immediate action to prevent or mitigate loss of, or damage to, life, health, property or essential public services activities (i.e. situation which would result in an unacceptable hazard to life, a significant loss of property, or an immediate, unforeseen, and significant economic hardship if corrective action requiring a permit is not undertaken within a time period less than the normal time needed to process the application).
RGP 8

- **Notification Requirements**
  - Name, address, telephone number, email of applicant and agent
  - Location
    - Identification of affected waters
    - Latitude and longitude
    - Boundaries depicted on USGS topographic map or other location map
    - Detailed directions
  - Description of proposed work
    - Drawings with plans and sections with approximate existing contours showing approximate acreage and/or linear feet relative to OHWM/MHWM/limit of wetland
    - Construction details, including type and quantity of materials, equipment to be used
  - Description of existing conditions and anticipated environmental impacts
    - Type and extent of vegetation and/or habitat that would be disturbed or lost
    - Pre-construction photographs
RGP 8

- Notification Requirements (cont’d)
  - Proposed measures to avoid and minimize impacts to aquatic environment
  - Description of anticipated impacts on Federally-listed threatened and/or endangered species
    - Description of action to be considered
    - Description of the specific area that may be affected
    - Description of listed species or critical habitat that may be affected
    - Description of the manner in which the action may affect species/critical habitat and analysis of cumulative impacts
    - Relevant reports
    - Other relevant Information
  - Description of any historic properties which may be affected, including vicinity map identifying resources and location
  - Description of how activities will comply with conditions for RGP
Letter of Permission (LOP)

- Permit issued through abbreviated processing which includes coordination with Federal and state fish and wildlife agencies and public interest evaluation without Public Notice

- May be used
  - In cases subject to Section 10 of the Rivers and Harbors Act when Corps determines work would be minor, would not have significant individual or cumulative impacts on environmental values and should encounter no appreciable opposition
  - In cases subject to Section 404 of the Clean Water Act after
    - The Corps, through consultation with applicable agencies develops a list of categories of activities proposed for authorization under LOP procedures
    - Corps issues public notice advertising proposed list and LOP procedures, requesting comments and offering opportunity for a public hearing
    - A Section 401 WQC has been issued/waived, on a generic or individual basis
LOP (cont’d)

- **Section 10 LOP:**
  - Complete Application contains same information as for Standard Permit

- **Section 404 LOP**
  - LOP procedures issued by Sacramento District on March 1, 2010 (revised September 16, 2013)
  - Categories of activities
    - Those which will result in the loss of no more than 1 acre of waters of the U.S. or 500 lf of streambed or bank
    - Would have individual and cumulative minimal effects
Section 404 LOP

- Activities:
  - Residential, commercial, industrial, recreational, agricultural, and municipal development
  - Transportation and infrastructure
  - Energy
  - Utility line repair and maintenance
  - Mining
  - Flood control and storm-water management
  - Research, testing, and monitoring
  - Environmental remediation and restoration
  - Repair, rehabilitation, or maintenance including minor maintenance dredging using existing disposal sites
  - Docks
  - Boat ramps
Section 404 LOP

Notification Requirements

► Cover letter requesting Lop under procedures, referencing Corps’ ID number and contact information
  • Mailing and e-mail address and telephone and fax numbers
► Completed ENG Form 4345
► Approve or preliminary JD, including copy of delineation map
► Site location maps including the proposed activity (and where appropriate mitigation) sites on USGS 7.5 quad sheets, with latitude and longitude, name of quad sheet, direction to the site, and aerial and other imagery
► Complete description of proposed activity
  • Plan and profile view drawings relative to location of waters of the U.S. showing areas, types and acreages of waters to be impacted
  • Pre-construction of the site and representative aquatic resources with locations identified on plan-view drawings
Section 404 LOP (cont’d)

- Notification Requirements
  - Total area (acreage) of waters of the U.S. to be directly/indirectly affected, volume (in cubic yards) and type of material to be placed in waters of the U.S.; description of habitat types, including plant communities within and surrounding the site; description of how activity would affect all of the above resources.
  - Description and graphical representation of how impact to waters of the U.S. and functions have been avoided and minimized to maximum extent practicable
    - Identify all BMPs proposed
  - Description of potential cumulative, secondary, and/or indirect impacts to aquatic resources and human environment
  - Proposed schedule
  - Documentation of pre-application coordination with Corps and other agencies
Section 404 LOP (cont’d)

- Notification Requirements
  - Information in report form regarding on-site and off-site practicable alternatives & relative environmental impacts of alternatives
  - Compensatory mitigation plan in accordance with 33 CFR 332
    - If proposed purchase at mitigation bank, include proposed bank name and type of credits
  - Copies of state/local approvals, evidence of application for Section 401 WQC or waiver
Section 404 LOP (cont’d)

- Notification Requirements
  - Copies of Biological Assessment for impacts to Federally-listed threatened/endangered species
    - Description of action to be considered
    - Description of the specific area that may be affected
    - Description of listed species or critical habitat that may be affected
    - Description of the manner in which the action may affect species/critical habitat and analysis of cumulative impacts
    - Relevant reports
    - Other relevant Information
  - Copies of cultural resources report in accordance with Corps guidelines for compliance with Section 106 of the National Historic Preservation Act
Standard Permit

- Type of Individual Permit required if project cannot be authorized under NWP, RGP, or LOP

- Generally more than minimal individual/cumulative adverse effects

- Processed through public interest review, including public notice and receipt of comments
Standard Permit

Requirements for Complete Application

► Must submit a completed and signed ENG Form 4345
► Complete description of proposed activity
  • Necessary drawings, sketches, or plans sufficient for public notice
  • Location, purpose and need for proposed activity
  • Name and addresses of adjoining property owners
  • Location and dimensions of adjacent structures
  • List of authorizations required by other agencies, including approvals and denials made
► All activities the applicant plans that are reasonably related to same project and would require DA permit should be included in the same application
► If dredging, application must include description of type, composition and quantity of material to be dredged, method for dredging, and plans for disposal
Standard Permit

Requirements for Complete Application

► If activity would include discharge of dredged/fill material or transportation of dredge material for ocean disposal, application must include
  • Source of material
  • Purpose of discharge
  • Description of type, composition, and quality of material
  • Method of transportation and disposal
  • Location of disposal site

► If activity would include construction of filled area or pile or float-supported structure, must include use of, and specific structures to be erected on the fill or platform

► If activity would involve construction of impoundment structure, applicant may be required to demonstrate that structure complies with established state dam safety criteria or structure has been designed by qualified persons (may be independently reviewed)
Standard Permit

- Requirements for Complete Application
  - For discharges into waters of the U.S., must include
    - Statement describing how impacts are to be avoided and minimized
    - Statement describing how impacts are to be compensated for or a statement explaining why compensatory mitigation should not be required
## U.S. Army Corps of Engineers
### Application for Department of the Army Permit

**33 CFR 322. The proponent agency is CECW-CO-R.**

Public reporting for this collection of information is estimated to take 1.5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of the collection of information, including suggestions for reducing this burden, to Department of Defense, Washington Headquarters, Executive Services and Communications Directorate, Information Management Division and to the Office of Management and Budget, Paperwork Reduction Project (0710-0003). Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number. Please DO NOT RETURN your form to either of those addresses. Completed applications must be submitted to the District Engineer having jurisdiction over the location of the proposed activity.

**PRIVACY ACT STATEMENT**

Authorities: Rivers and Harbors Act, Section 16, 33 USC 403; Clean Water Act, Section 404, 33 USC 1344; Marine Protection, Research, and Sanctuaries Act, Section 103, 33 USC 1413; Regulatory Programs of the Corps of Engineers, Final Rule 33 CFR 322-332. Personal information provided on this form will be used in evaluating the application for a permit. Routine Uses: This information may be shared with Department of Justice and other federal, state, and local government agencies, and the public and may be made available as part of a public notice as required by Federal law. Submission of requested information is voluntary, however, if information is not provided the permit application cannot be evaluated nor can a permit be issued. One set of original drawings or good reproducible copies which show the location and character of the proposed activity must be attached to this application (see sample drawings and/or instructions) and be submitted to the District Engineer having jurisdiction over the location of the proposed activity. An application that is not completed in full will be returned.

* Would include but is not restricted to zoning, building, and flood plain permits

27. Application is hereby made for permit or permits to authorize the work described in this application. I certify that this information in this application is complete and accurate. I further certify that I possess the authority to undertake the work described herein or am acting as the duly authorized agent of the applicant.

SIGNATURE OF APPLICANT DATE SIGNATURE OF AGENT DATE

The Application must be signed by the person who desires to undertake the proposed activity (applicant) or it may be signed by a duly authorized agent if the statement in block 11 has been filled out and signed.

18 U.S.C. Section 1001 provides that: Whoever, in any manner within the jurisdiction of any department or agency of the United States knowingly and willfully falsifies, conceals, or covers up any trick, scheme, or device to defraud the United States or any agency thereof or knowingly and willfully makes any false, fictitious, or fraudulent statement or representation or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than five years or both.
Standard Permit

What’s not required? (but is recommended)

► Photographs

► Information for compliance with Section 7 of the Endangered Species Act (required before a permit decision is made)

► Cultural resources information (required before a permit decision is made)

► Alternatives information for compliance with the Section 404(b)(1) Guidelines (required before a permit decision is made if Section 404 activity)

► A draft/final mitigation and monitoring plan/long-term management plan for compensatory mitigation (Final plan required before a permit decision is made, if permittee-responsible compensatory mitigation)
LIST OF ADDITIONAL INFORMATION REQUIRED FOR COMPLETE INDIVIDUAL PERMIT APPLICATION

APPLICATION FOR A DEPARTMENT OF THE ARMY PERMIT

All information must be submitted by hard copy, and, if available, electronically (as a .pdf file) on a compact disc and/or via email to the Corps Project Manager:

- General Information (Complete and sign ENG Form 4345)
  - Name, address and telephone of the applicant and authorized agent (if used)
  - Signature for statement of authorization designating official agent
  - Project Name or Title
  - Name of Nearest Waterbody (if known)
  - Project Site Street Address
  - Location of Project (County, State and coordinates)
  - Other Location Descriptions, if known (include Section, Township, Range, Meridian, etc)
  - Total area of the Project Site
  - Directions to the Project Site

- Nature of Activity
  - Complete written description of the proposed project
  - All activities which you plan to undertake which are reasonably related to the proposed project and for which a Department of the Army permit is required.
  - Dimensions of proposed structures/fills and types of material proposed to be used in construction
  - For dredging activities
    - Type, composition and quantity of material to be dredged
    - Method of dredging, equipment used, method used to transport and site and plans for disposal
  - For structures/work in navigable waters
    - Identify specific structures to be constructed or work to be done and the use of the structure/work
    - Method by which work would be conducted (including equipment to be used))
    - Linear distance of waterway that will be impacted for the entire proposed activity
    - If the proposed project involves a discharge of dredged and/or fill material into waters of the U.S.
  - Purpose and Need of the Proposed Project
    - What will the proposed project be used for and why? What is the need for the proposed project?
    - Description of any related activities to be developed as a result of the proposed project
    - Approximate dates planned to begin and complete all work
  - Projects involving the discharge of dredged and/or fill material into waters of the United States
    - Reasons for the discharge (specific purpose of the placement of material)
    - Type of material being discharged and the amount of each type in cubic yards
    - Source of the material to be discharge (e.g. on-site, commercial source, specific offshore location)
    - Surface area of wetlands or other waters proposed to be filled, include type of waters to be filled and linear distance of waterway proposed to be impacted
    - Means by which the discharge is proposed to be done (backhoe, dragline, etc.)
    - Dredged material discharged at an upland site (description and map of the disposal site and steps taken to prevent runoff into any adjacent water(s))

- Is any portion of the work complete, if yes, describe the work
- Names and addresses of adjoining property owners, lessors, etc. whose property adjoins the waterbody
- List of other certifications or approvals/denials received from other Federal, state or local agencies for work described in application (e.g. Regional Water Quality Control Board - 401 certification, California Department of Fish and Game - Streambed Alteration Agreement, Other approvals required by City, County, or special districts
- For activities that involve the construction of an impoundment structure, information sufficient to demonstrate that
Addn’l Info √ List for SPK

the structure complies with established state dam safety criteria

Mitigation
- An explanation of how impacts associated with the proposed activity are to be avoided and minimized
- An explanation of how impacts associated with the proposed activity are to be compensated
- Amount, type and location of proposed compensatory mitigation (if compensatory mitigation proposed to be conducted through the use of a Corps approved mitigation bank and/or in-lieu fee program, a statement to this effect is sufficient to meet this requirement)

REQUIRED FIGURES AND DIAGRAMS²

All figures and diagrams should be legible, on 8 1/2 x 11” or 11” X 17” white paper, and include a north arrow, scale, and other pertinent project information.

- Veiocity map
- Scale plan view diagram of existing (pre-project) conditions:
  - Location of all waters of the U.S., including the location of the ordinary high water mark or mean high water mark and high tide line
  - Indicate any existing structures at proposed project site or adjacent to site
- Scale plan view diagram of anticipated conditions following construction of project
  - Location of all waters of the U.S., including the location of the ordinary high water mark or mean high water mark and high tide line
  - Indicate any existing structures at proposed project site or adjacent to site
  - Project boundary, including all access, easement, permanent and temporary construction areas associated with the project
- Cross section or lateral view of proposed activity
