II. Public Hearing To Be Held on Objections to EPA's Notice of Intent To Suspend DCPA

EPA previously published (87 FR 25262, April 28, 2022) a Notice of Intent to Suspend (NOITS) the registration of DCPA pursuant to its authority under Section 3(c)(2)(B)(iv) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), 7 U.S.C. 136a(c)(2)(B)(iv). Section 3(c)(2)(B)(iv) of FIFRA provides that any person adversely affected by the NOITS may request a hearing on the proposed suspension within thirty days of the registrant receiving the notice. On May 24, 2022, the Western Plant Health Association filed an objection to the NOITS. On May 27, 2022, AMVAC Chemical Corporation, the DCPA registrant, filed an objection to the NOITS and requested a hearing. Also on May 27, 2022, the Grower-Shipper Association of Central California, Sunheaven Farms, LLC, J&D Produce, Ratto Bros., Inc., and Huntington Farms jointly filed an objection to the NOITS and requested a hearing.

The hearing requests commenced a proceeding under section 6(d) of FIFRA, 7 U.S.C. 136d(d), and EPA's procedural rules, 40 CFR 164, before EPA's Office of Administrative Law Judges. Under those rules, a hearing was previously scheduled to begin on July 6, 2022 (87 FR 37507, June 23, 2022). However, that hearing was canceled after the EPA

requested and was granted an accelerated decision. Petitioners appealed that decision to the Environmental Appeals Board, which on September 28, 2022, issued an order remanding the case to the Office of Administrative Law Judges. The Environmental Appeals Board directed that a hearing be held to determine whether AMVAC failed to take appropriate steps to secure data required by EPA to maintain DCPA's registration and, if so, whether the existing stocks provision of the DCPA NOITS is consistent with FIFRA.

As set forth in **DATES** and **ADDRESSES**, this rescheduled hearing will begin at 9 a.m. ET January 24, 2023, and continue as necessary through January 27, 2023, in the EPA Administrative Courtroom, EPA East Building, Room 1152, 1201 Constitution Ave. NW, Washington, DC 20460. Anyone wishing to attend the hearing must notify Mary Angeles, Headquarters Hearing Clerk, Office of Administrative Law Judges, by email no later than January 13, 2023, at the email address listed under **FOR FURTHER INFORMATION CONTACT**. A notice of intent to attend the hearing shall include the individual's name, email address, telephone number, and any organization they represent. On the day of the hearing, attendees must present government-issued identification to enter EPA facilities, and they may be required to wear a mask and physically distance from others in the hearing room. Attendees may face further restrictions on entry based on the community level of COVID-19 at the time of the hearing.

Authority: 7 U.S.C. 136 *et seq.*; 40 CFR 164.

As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Title: Satellite Delivery of Network Signals to Unserved Households for Purposes of the Satellite Home Viewer Act.

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 848 respondents; 250,000 responses.

Estimated Time per Response: 0.50 hours.

Frequency of Response: Recordkeeping requirement, On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection action is contained in 47 U.S.C. 339.

Total Annual Burden to Respondents: 125,000 hours.

Total Annual Cost: No cost.

Needs and Uses: The information collection requirements contained in 47 CFR 73.686 describes a method for measuring signal strength at a household so that the satellite and broadcast industries would have a uniform method for making an actual determination of the signal strength that a household received. The information gathered as part of the noise-limited service contour signal strength tests will be used to indicate whether a household is “unserved” by over-the-air network signals.

Satellite and broadcast industries making field strength measurements for formal submission to the Commission in rulemaking proceedings, or making such measurements upon the request of the Commission, shall follow the procedure for making and reporting such measurements which shall be included in a report to the Commission and submitted in affidavit form, in triplicate. The report shall contain the following information:

(a) Tables of field strength measurements, which for each measuring location; (b) U.S. Geological Survey topographic maps; (c) All information necessary to determine the pertinent characteristics of the transmitting installation; (d) A list of calibrated equipment used in the field strength survey; (e) A detailed description of the calibration of the measuring equipment, and (f) Terrain profiles in each direction in which measurements were made.

The information collection requirements contained in 47 CFR 73.686 also requires satellite and broadcast companies to maintain a written record describing, for each location, factors which may affect the recorded field (*i.e.*, the approximate time or measurement, weather, topography, overhead wiring, heights and types of vegetation, buildings and other structures, the orientation of the measuring location, objects of such shape and size that cause shadows or reflections, signals received that arrived from a direction other than that of the transmitter, survey, list of the measured value field strength, time and date of the measurements and signature of the person making the measurements).
