DATES: A public scoping meeting will be held in Jackson, MS, at the Mississippi Agriculture, Forestry, and Aviation Museum, on February 23, 2004, at 6 p.m.

FOR FURTHER INFORMATION CONTACT: Questions about the proposed action and Draft Environmental Impact Statement (EIS) should be directed to Ms. Karen Dove-Jackson (telephone (601) 631–7136) or Vicksburg District, 4155 Clay Street, ATTN: CEMVK–PP–PQ, Vicksburg, MS 39183–3435.

SUPPLEMENTARY INFORMATION: This project is authorized by congressional resolutions adopted May 9, 1979. These authorizations read as follows:

“Resolved by the Committee on Public Works and Transportation of the House of Representatives, United States, That the Board of Engineers for Rivers and Harbors is hereby requested to review the reports of the Chief of Engineers on Pearl River Basin, Mississippi and Louisiana, published as House Document Number 282, Ninety-Second Congress, Second Session, and other pertinent reports, with a particular view toward determining whether any further improvements for flood damage prevention and related purposes are advisable at this time. The alternatives are to be reviewed with local interests to assure a viable, locally supported project. Resolved by the Committee on Public Works and Transportation of the House of Representatives, United States, That the Board of Engineers for Rivers and Harbors is hereby requested to review the report of the Chief of Engineers on the Pearl River and Tributaries, Mississippi, contained in House Document 441, 86th Congress, and other reports with a view to determining whether measures for prevention of flood damages and related purposes are advisable at this time, in Rankin County, Mississippi. Resolved by the Committee on Environment and Public Works of the United States Senate, That the Board of Engineers for Rivers and Harbors, created under section 3 of the River and Harbor Act, approved June 13, 1902, and is hereby requested to review the reports of the Chief of Engineers on Pearl River Basin, Mississippi and Louisiana, submitted in House Document Numbered 92–282, 92nd Congress, 2nd Session, and other pertinent reports with a view to determining whether any further improvements for flood damage prevention and related purposes are warranted at this time.”

1. A reconnaissance study was initiated in 1989 and a favorable report was completed in 1990 for the Pearl River Watershed, MS, Project. The local sponsor executed a Feasibility Cost-Sharing Agreement (FCSA) with the U.S. Army Corps of Engineers (Corps) in September 1991 to pursue alternative solutions. The resulting recommended plan document, a January 1996 draft report was a comprehensive levee system to provide protection from a flood event of 1979 magnitude. The 1979 flood event in Jackson is the maximum flood of record. The frequency of this flood in Jackson was estimated at approximately a 200-year event. Study actions were suspended in July 1998, and the final feasibility report was never completed. Lack of local support for the recommended plan, questions over operation of the Ross Barnett Reservoir, and downstream concerns over flooding and bank caving were primary issues. In 1996, local interests proposed the LeFleur Lakes Flood Control Plan, consisting of upper and lower lakes along the Pearl River south of the Ross Barnett Reservoir, as an alternative to the comprehensive levee plan. The lakes would extend from the Ross Barnett Reservoir outlet downstream along the Pearl River to approximately 1 mile southwest of Interstate 20. The combined lakes would cover approximately 4,800 acres at normal operating levels, and weirs at both the upper and lower lakes would regulate flow. The plan is supported locally by community and business leaders due to its commercial development aspects and potential for cost recovery. An independent evaluation of the LeFleur Lakes Flood Control Plan was conducted from June–December 2000 by an Architect-Engineer firm. The valuation indicated that the LeFleur Lakes Plan could reduce Pearl River flooding in the Jackson area, as would the levee plan. The Feasibility Cost Sharing Agreement, necessary for study resumption, was signed with the non-Federal sponsor, Rankin-Hinds Pearl River Flood and Drainage Control District, on 15 October 2003. Studies will include updating the previously proposed levee plans presented in the aforementioned January 1996 draft report and an analysis of the LeFleur Lakes flood control plan. Studies will also include investigations of levees for south Jackson and Richland as a component of the LeFleur Lakes Plan. The District Engineer has decided to prepare a Draft EIS to investigate measures to alleviate flooding in the study area and the feasibility of continued Federal involvement in developing and implementing a solution.

2. The feasibility study for Pearl River Watershed, MS, will be conducted to fully evaluate a range of alternatives to provide a comprehensive plan for flood control. Alternative development and analysis as currently planned will be limited to updating of previously proposed levee plans and an evaluation of the LeFleur Lakes Plan.

3. A public scoping meeting will be held in Jackson, MS (see DATES). Significant issues identified during this scoping process will be analyzed in depth in the Draft EIS. The Natural Resources Conservation Service; U.S. Forest Service; Environmental Protection Agency; U.S. Fish and Wildlife Service; Mississippi Department of Environmental Quality; and Mississippi Department of Wildlife, Fisheries and Parks will be invited to become cooperating agencies. Federally recognized Indian tribes will also be invited to become cooperators. These agencies and tribes will be asked to participate in the review of data and the feasibility report and appendixes.

4. Upon completion, the Draft EIS will be distributed for agency and public review and comment. Additionally, a public meeting will be held to present results of the Draft EIS evaluations and the recommended plan.

5. The DEIS is estimated to be completed in October of the year 2005.

Douglas J. Kamien,
Chief, Planning, Programs, and Project Management Division.

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Intent To Prepare a Draft Environmental Impact Statement for the Proposed Rio del Oro Project, in Sacramento County, CA, Corps Permit Application Number 199900590

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DOD.

ACTION: Notice of intent.

SUMMARY: The U.S. Army Corps of Engineers (Corps), Sacramento District, will prepare a Draft Environmental Impact Statement (DEIS) for the proposed Río del Oro project, a proposed residential and commercial development in Rancho Cordova, Sacramento County, CA. Elliot Homes, Inc. has applied for a permit to fill approximately 47 acres of waters of the United States, including vernal pools, and other wetlands.

DATES: Public scoping meetings will be held on February 26, 2004. The first meeting will be held at Rancho Cordova’s City Hall, at 1:30 p.m., and the second meeting will be at Mills Station, at 6:30 p.m.

FURTHER INFORMATION CONTACT: Questions about the proposed action and DEIS can be answered by Mr. Justin Cutter, (916) 557–5258,
SUMMARY:
The Corps’ public involvement program includes several opportunities to provide oral and written comments (See DATES). Affected Federal, state, local agencies, Indian tribes, and other interested private organizations and parties are invited to participate. Currently, potentially significant issues to be analyzed in depth in the DEIS include, loss of waters of the United States, including wetlands, cultural resources, biological resources, hazardous materials, air quality, surface and groundwater, water quality, noise, aesthetics, and socio-economic effects.

EXCEPT FOR ON-SITE PRESERVE ALTERNATIVE, NO SPECIFIC OFF-SITE PROJECT ALTERNATIVES HAVE BEEN IDENTIFIED. HOWEVER, ALTERNATIVES, INCLUDING THE NO-PROJECT ALTERNATIVE, OTHER LOCATIONS AND OTHER SITE CONFIGURATIONS, WILL BE EVALUATED IN THE DEIS AND IN ACCORDANCE WITH THE SECTION 404(b)(1) GUIDELINES.

The Corps has initiated formal consultation with the U.S. Fish and Wildlife Service, under section 7 of the Endangered Species Act, for five Federally threatened or endangered species and one species proposed for listing that may be affected by the project. The Corps will also be consulting with the State Historic Preservation Officer under section 106 of the National Historic Preservation Act for potential impacts to properties listed, or potentially eligible for listing, on the National Register of Historic Places.

The Environmental Impact Statement will be prepared as a joint document with the City of Rancho Cordova. The City is the local agency responsible for preparing an Environmental Impact Report in compliance with the California Environmental Quality Act. The DEIS is expected to be released in March of 2005.

Luz D. Ortiz,
Army Federal Register Liaison Officer.

DEPARTMENT OF EDUCATION
Notice of Proposed Information Collection Requests

AGENCY: Department of Education.
SUMMARY: The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before April 5, 2004.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency’s ability to perform its statutory obligations. The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Angela C. Arrington,
Leader, Regulatory Information Management Group, Office of the Chief Information Officer.

Institute of Education Sciences

Type of Review: Revision.
Title: 2005 National Household Education Surveys Program (NHES:2005).
Frequency: One-time.
Affected Public: Individuals or household.
Reporting and Recordkeeping Hour Burden: Responses: 2,350.
Burden Hours: 302.
