

U.S. ARMY CORPS OF ENGINEERS
REGULATORY PROGRAM
APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)
NAVIGABLE WATERS PROTECTION RULE

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): September 4, 2020

ORM Number: SPK-2020-00466

Associated JDs: N/A

Review Area Location¹:

State/Territory: CA City: County/Parish/Borough: Placer County

Center Coordinates of Review Area: Latitude 38.729586 Longitude -121.388627

II. FINDINGS

A. Summary: Check all that apply. At least one box from the following list **MUST** be selected.

Complete the corresponding sections/tables and summarize data sources.

- The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A or describe rationale.
- There are “navigable waters of the United States” within Rivers and Harbors Act jurisdiction within the review area (complete table in section II.B).
- There are “waters of the United States” within Clean Water Act jurisdiction within the review area (complete appropriate tables in section II.C).
- There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in section II.D).

B. Rivers and Harbors Act of 1899 Section 10 (§ 10)²

§ 10 Name	§ 10 Size	§ 10 Criteria	Rationale for § 10 Determination
N/A	N/A	N/A	N/A

C. Clean Water Act Section 404

Territorial Seas and Traditional Navigable Waters ((a)(1) waters)³

(a)(1) Name	(a)(1) Size	(a)(1) Criteria	Rationale for (a)(1) Determination
N/A	N/A	N/A	N/A

Tributaries ((a)(2) waters):

(a)(2) Name	(a)(2) Size	(a)(2) Criteria	Rationale for (a)(2) Determination
N/A	N/A	N/A	N/A

Lakes and ponds, and impoundments of jurisdictional waters ((a)(3) waters):

(a)(3) Name	(a)(3) Size	(a)(3) Criteria	Rationale for (a)(3) Determination
N/A	N/A	N/A	N/A

Adjacent wetlands ((a)(4) waters):

(a)(4) Name	(a)(4) Size	(a)(4) Criteria	Rationale for (a)(4) Determination
N/A	N/A	N/A	N/A

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District’s list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

D. Excluded Waters or Features

Excluded waters ((b)(1) – (b)(12))⁴:

Exclusion Name	Exclusion Size	Exclusion ⁵	Rationale for Exclusion Determination
PEM-1- SPK-2020-00466	0.002 acre	(b)(1) Non-adjacent wetland	This wetland meets the definition of paragraph (c)(16); however, it does not abut, nor is it inundated by flooding from an (a)(1) – (a)(3) water in a typical year, nor is it physically separated from an (a)(1) – (a)(3) water by a natural or artificial barrier. Furthermore, there is no hydrologic surface water connection between the wetland and a paragraph (a)(1) – (a)(3) water in a typical year.
R5UBJx-1- SPK-2020-00466	0.01 acre	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1)	This ditch is a constructed roadside ditch used to convey storm water. It is not a relocated tributary, was not constructed in a tributary, and no part was constructed in a wetland or any other waters type.
R5UBJx-2- SPK-2020-00466	0.003 acre	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1)	This ditch is a constructed roadside ditch used to convey storm water. It is not a relocated tributary, was not constructed in a tributary, and no part was constructed in a wetland or any other waters type.

III. SUPPORTING INFORMATION

A. Select/enter all resources that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

Information submitted by, or on behalf of, the applicant/consultant: *Aquatic Resource Delineation for the Frisvold Property, dated May 2020, prepared by Bargas Environmental Consulting.*

This information is sufficient for purposes of this AJD.

Rationale: *N/A.*

___ Data sheets prepared by the Corps: *N/A.*

Photographs: 1) Ground photos: *Delineation report dated May 2020;*
2) Aerial Imagery: *Google Earth 7.3.3.7692 (Build Date: April 30, 2020). Roseville, California. Latitude 38.731094°N, Longitude -121.388705°W, eye alt 1055 ft. Retrieved September 4, 2020, from http://www.earth.google.com.*

___ Corps Site visit(s) conducted on: *N/A.*

___ Previous Jurisdictional Determinations (AJDs or PJDs): *N/A.*

___ Antecedent Precipitation Tool: *N/A.*

___ USDA NRCS Soil Survey: *N/A.*

___ USFWS NWI maps: *N/A.*

___ USGS topographic maps: *N/A.*

Other data sources used to aid in this determination:

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide and included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

NOAA Sources	N/A.
USACE Sources	N/A.
State/Local/Tribal Sources	N/A.
Other Sources	N/A.

B. Typical year assessment(s): N/A.

C. Additional comments to support AJD: The ditches and non-adjacent wetland are located along PFE Road, which traverses the review area to the south. The nearest potential (a)(1) - (a)(3) water is Dry Creek, located approximately ½-mile west and outside of the review area. The intervening area between the closest (a)(1) – (a)(3) water and the non-adjacent wetland is upland. The ditches are man-made roadside drainage ditches that flow into the County’s stormwater drainage system.

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.
