¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: The entire site consists of uplands as verified on site by Corps personnel. Some abandoned lateral ditch features were found but do not have ordinary high water mark indicators. The data point locations were chosen based on highest likelihood of wetland indicators and these areas did not qualify as wetlands.
