

Table 1. San Joaquin River Restoration Project, Mendota Pool Bypass & Reach 2B: Comparison of Existing and Predicted Area of Future Jurisdictional Wetlands and Other Waters of the U.S.

	Total Existing (acres)	Total Future (acres)	Difference (acres)
Wetlands			
Lacustrine, littoral, unconsolidated shore, vegetated	41	0	-41
Palustrine, emergent, persistent	47	140	93
Palustrine, forested, broad-leaved deciduous	114	643	529
Palustrine, scrub-shrub, broad-leaved deciduous	72	217	145
Riverine, Intermittent, Unconsolidated Shore, Vegetated	3	1	-2
Subtotal	277	1,001	724
Other Waters of the U.S.			
Lacustrine, limnetic, unconsolidated bottom, mud	235	10	-225
Riverine, intermittent, unconsolidated bottom, sand	152	5	-147
Riverine, lower perennial, unconsolidated bottom, sand	23	393	370
Subtotal	414	408	-6
Total	691	1,409	718
Non-jurisdictional Riparian Habitat			
Riparian, non-wetland	0	354	354
