

Public Notice

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG®

Subject: Public Notice of Proposal to Accept Funding

Action ID: SPK 2018-00002

Comments Period: 1 August 2018 to 18 August 2018

SUBJECT: Proposal to accept funds from Yolo County.

This Public Notice announces the preliminary intent of the U.S. Army Corps of Engineers, Sacramento District (Corps) to accept funds contributed by Yolo County in order to expedite processing of their Section 408 requests, subject to a series of limitations below.

Section 214 of the Water Resources Development Act of 2000 (WRDA 2000, Public Law No. 106-541 111-120) as amended, provides:

- (a) The Secretary of the Army, after public notice, may accept and expend funds contributed by non-Federal public entities to expedite the evaluation of permits under the jurisdiction of the Department of the Army.
- (b) In carrying out this section, the Secretary shall ensure that the use of funds accepted under subsection (a) will not impact impartial decision making with respect to permits, either substantively or procedurally.

The Secretary of the Army has delegated this responsibility to the Chief of Engineers and his authorized representatives, including the Commander of the Sacramento District, U.S. Army Corps of Engineers.

Definition of non-Federal public entities: Non-Federal public entities are comprised of state and local governmental agencies and tribal governments. Yolo County meets this definition.

How the Corps would expend the funds: The Corps Section 408 program is funded as a congressionally appropriated line item in the annual Federal budget. Additional funds received by the County of Yolo would be used to augment the budget of the Corps in accordance with the provisions of Section 214 of WRDA 2000, as amended. The Corps would establish a separate account to track the receipt and expenditure of the funds.

Activities for which funds will be expended: Funds would be expended primarily on the labor for processing a 408 request by the Corps. Such processing activities could include, but not be limited to, the following: application completeness review, jurisdictional determinations, site visits, preparation of public notices, preparation of correspondence, meetings, consultation with other agencies, public interest review, distribution of public notices, analysis of alternatives, compensatory mitigation proposal reviews, preparation of environmental assessments, preparation of decision documents and permission compliance.

Procedures to be used to ensure impartial decision-making: To ensure the funds will not impact impartial decision-making, the following procedures would apply:

- (a) All final 408 decisions for cases where these funds are used must be reviewed at least one level above the decision maker, unless the decision maker is the District Commander. For example, if the decision maker is the Chief of the Engineering Division, then the reviewer would be the District Commander.
- (b) All final 408 decisions for requests where these funds are expended will be made available on the Corps Headquarters web page.
- (c) The Corps will not eliminate any procedures or decisions that would otherwise be required for that type of project and permit application under consideration.
- (d) The Corps will comply with all applicable laws and regulations.
- (e) Funds will only be expended to provide priority review of the participating non-Federal entity's permit applications.

Impacts to the Section 408 Program: We do not expect priority review of Yolo County's projects to negatively impact the Section 408 program or to increase the time for evaluations of other projects since additional staff will be hired to augment this priority review.

Consideration of Comments: The Corps is soliciting comments from the public, Federal, State and local agencies and officials, and other interested parties. Comments will be made part of the record, and they will be considered in determining whether it would be in the public interest to proceed with this action. If the Sacramento District Commander determines, after considering public comments, that the acceptance and expenditure of the funds is in compliance with Section 214 of WRDA 2000 as amended, the Corps will implement the act through a signed memorandum of agreement and accept funds from Yolo County. A second public notice will be issued regarding the final decision on this matter.

Submission of Comments: Comments on implementing Section 214 of WRDA 2000 as amended will be accepted and made part of the record, and they will be considered in determining whether it would be in the best public interest to proceed with this administrative practice. Interested parties may submit, in writing, any comments concerning this proposal. **Comments should refer to SPK-2018-00001 and be forwarded by the comment due date of 30 August 2018.** Comments must be sent to the U.S. Army Corps of Engineers, Sacramento District, Regulatory Division, ATTN: Kevin Lee, 1325 J Street, Room 14th Floor, Sacramento, CA 95814-2922. Alternatively, comments can be sent electronically to Kevin.C.Lee@usace.army.mil
